Security & Operations Inspection Report

Kwasa Damansara — Mechanical & Electrical infrastructure assessment. A portfolio sample demonstrating automated report generation from inspection data pipelines.

Inspector: Tuan Dev

Site: Kwasa Damansara

Duration: Aug 2026

SLA: 96.1%

EXECUTIVE SUMMARY

Key Findings

SLA improved after rebalancing inspection routing and incident triage. Access-control queue grew this month; remediation plan has budget and sponsorship. No critical safety findings — two minor housekeeping observations remain open.

Risk Summary

High: Access Control — wiring compliance gaps in zones C–D.

Medium: Lighting & Safety — deferred luminaire replacement.

Low: Electrical Distribution and Cable Routing on track.

FINDINGS RESOLVED BY WEEK

FINDING PROGRESS BY AREA

AREA	OWNER	PROGRESS	RISK	STATUS
Electrical Distribution	N. Mehta		Low	On Track
Cable Routing	D. Chen		Low	On Track
Access Control	R. Walker		High	At Risk
Lighting & Safety	M. Roy		Medium	On Track

INSPECTION METHODOLOGY

01

Visual Survey
Systematic walkthrough of all zones with photographic documentation and anomaly tagging.

02

Compliance Check
Verification against local electrical codes, fire safety standards, and tenant fit-out guidelines.

03

Risk Scoring
Each finding rated on severity, likelihood, and impact. Escalations trigger automated alerts.

FINDINGS BY CATEGORY

INSPECTION TIMELINE

04 Aug 2026	Initial site access granted. Zones A-B surveyed. 18 findings logged.
07 Aug 2026	Zones C-D survey completed. Access-control wiring issues identified in zones C-D.
11 Aug 2026	Electrical distribution audit. Cable routing verified. 4 findings escalated.
14 Aug 2026	Lighting and safety walkthrough. Luminaire replacement deferred to Phase 2.
18 Aug 2026	Final review. 155 of 214 findings resolved. Remaining 59 in progress.

NEXT STEPS

Immediate (Week 5)

- Complete access-control remediation in zones C-D
- Schedule luminaire replacement for Phase 2
- Close remaining 59 findings with area owners

Quarter 2 Outlook

- Expand inspection coverage to parking infrastructure
- Integrate automated compliance scoring into the pipeline
- Target 98% SLA by end of Q2 2026
